TVAC40010

Assembled BNC–cable 2m

With the high–quality, assembled coaxial cable you can connect your video components (e.g. camera and recorder) perfectly together. The cable resistance is 75 ohm. A BNC–plug is located at both ends of the cable. The assembled coaxial cable is available in a length of 20 m (TVAC40050), 10 m (TVAC40040), 5 m (TVAC40030), 3 m (TVAC40020), 2 m (TVAC40010) and 1 m (TVAC40000).

Product highlights:

- BNC–plug at both ends
- Impedance: 75 ohm
- High–quality assembled cable
- Length: 2 m

Assembled BNC–cable 2m

Technical Data			
Area of use	Indoor areas	Outer insulation	PVC
Connections	BNC (male) – BNC (male)	Damping	0.32dB/M(200MHZ)
Impedance	75	Outer diameter	5.0mm
Insulation	PE	Operating temperature	–10 – +60°C
Insulation resistance	5000M/KM	Length	2 m
